**SRTA Northwest Corridor Express Lanes
Performance Data
September 15-30, 2018**

ATLANTA – The State Road and Tollway Authority (SRTA) has released data on operations for the new Northwest Corridor Express Lanes for September 15-30.

The Northwest Corridor Express Lanes run along I-75 from Akers Mill Rd to Hickory Grove Road and along I-575 from I-75 to Sixes Road. The 29.7 miles of dynamically priced lanes are separated from the general-purpose lanes by a series of concrete barriers and gates, offering the highest level of safety. These lanes add new highway capacity in addition to the existing general-purpose lanes.

The Lanes are accessible seven days a week with a registered Peach Pass mounted properly on the vehicle. The Northwest Corridor Express Lanes flow toward Atlanta during the morning commute and away from Atlanta during the evening commute.

About the State Road and Tollway Authority (SRTA)

SRTA is a state-level, independent Authority created to operate tolled transportation facilities within Georgia and acts as the transportation financing arm for the state. SRTA manages the collection of tolls on Georgia's Express Lanes System through the use of Peach Pass; administers the Atlanta region's vanpool program; and manages the Xpress regional commuter coach transit service. In 2017, SRTA combined with the Georgia Regional Transportation Authority (GRTA) to jointly provide the services of both state authorities. The GRTA Board of Directors oversees Developments of Regional Impact, air quality reporting and regional transportation plan approval.
